

# Get Involved

## Volunteer Opportunities

REACH was founded in 1969 by a group of parents driven by the vision to remove barriers and provide the needed support for their children. The impact a small group of committed people can make in a community is endless. We at REACH wouldn't be where we are today without the constant support of our volunteers.

We invite you to join us and make a difference in people's life, including the rewarding feeling as a community leader in yours!

### Special Event Volunteer

Our special event volunteers are involved in all phases of our events. This includes pre-event planning, 'during the event' support, and post-event wrap up. It takes a lot of people and work to put on successful events, the final product is always worthwhile once you see the impact that our special events create. REACH has multiple events throughout the year and we can always use a helping hand.

Let us know your availability and contact us to find ways on how you can get involved!

### Special Education Instructors

If you are a special education instructor or licensed social worker, then we welcome you to help enhance our programs and services. You will help our support staff and improve our clients' experiences and learning outcomes in our Education program.

### Marketing Talent

It is easy for you to motivate others to get involved? Do you know what it takes to be a social media influencer? You are an absolute pro at creating 'dope flyers or announcements? Do you have a creative writing talent, or video/photography experience?

If you answered any of these questions with a 'yes,' then you can be sure that your skillset can make a huge difference at REACH.

### Business/Resource Development

Maximizing outcomes, researching opportunities, business growth and success are areas that you have experience in? We are looking for knowledgeable business minds that can help us develop strategies and realize opportunities to enhance decision making at management level.

### Technology / Website Content Design

We need people that know how to make the most out of modern technology. You will help us further develop our content and design for our website and internal processes. As a leader in our field, it is vital to stay up-to-date and maximize our outreach with a clean and professional look. With your help we can stay on top of the curve and ensure that our messages reach the public in the most effective manner

### Creative Artists/Art Instructors

You have a heart for art or the creativity and talent to create it? Please consider sharing your knowledge with our artists! Check out the Artsource (<http://reach.services/the-artsource-project>) for more information. The Artsource has been growing ever since some of our talented staff had the vision to start it and we would love to provide additional art classes, expand our horizons, and offer our services to more people!

### Administrative Assistant

We need volunteers to help lighten staff workload. The responsibilities would include reception work, answering the phone, preparing promotional material, responding to inquiries, assisting with scheduling and workshop registrations, attending events and meetings as well as assisting with a variety of administrative and computer tasks.

You will be making a significant contribution to REACH by helping us grow and donating a few hours of your time.

Want to get involved? Let's talk!
